

WELCOME TO OUR END OF THE YEAR ROUND UP...

First of all, we want to say a HUGE thank you for your continued support throughout 2023.

As a small independent business our happy and valued customers are the reason for our continued success.

We have always aimed to offer the best possible value for money,

exceptional quality in our products, service, and continued growth to serve not only our local community but also our growing customer base.

With that in mind we would like to let you in on even more exciting news of what Hamilton's can offer you.

INTRODUCING HAMILTON ARTLINE BESPOKE KITCHENS

Many companies claim to make or supply bespoke kitchens, but what does bespoke really mean? Well, if you take to Google to give you the answer it will say “made for a particular customer or user”.

As such, our standard kitchens we would consider bespoke. But we wanted to be able to take the idea of bespoke to another level.

We wish to offer a better service, where “Bespoke” means truly bespoke to you and no one else. This means each kitchen is designed and produced exclusively to your own unique style as well as made to order. Every colour choice, door style, size, detail, and finish can be custom made from the designs we draw up together with you.

If you fancy a particular wood grain, you can have it. If you have the inclination for

glass or metal inlay, your wish is our command. All you need to do is bring us the idea and we can create it, using images to show you how your finished design will look.

Another benefit of having a truly bespoke kitchen means that units can be made to any size, meaning no ugly filler strips or infill panels messing up symmetry. Offering the same high quality as our existing Hamilton Kitchen Company ranges where unit sizes are custom sizes, Hamilton Artline offers a completely handmade, custom-built kitchen.

Check out our brochure or social media pages for more images of some of the amazing Hamilton Artline Kitchens we have already produced for existing clients.

COMING SOON...

KastenKüche

GERMAN MADE

Exciting News!! We have an exclusive new range **JUST** for Hamilton Kitchen Customers only... The Hamilton “KastenKüche” Range Launching January 2024 – Our new Exclusive German Kitchen Line will bring the quality you would expect from a German manufacturer with the personal service of a local company.

PREVIOUS HAMILTON ARTLINE CUSTOMER CASE STUDIES:

Case Study 1 – Statement Yellow:

Being Bold – Clients often see inspiration images online and ask us to help create something that isn't just a white or grey for them. With Hamilton Artline you can see some examples of how to embrace colour or shape into your designs. This stunning creation of bold sunshine yellow creates that real WOW factor the client wanted for her home.

Kitchens are in their DNA - I highly recommend!

It has been an absolute pleasure to work with the team at The Hamilton Kitchen Company. The team are all professional, friendly, incredibly knowledgeable with their craft, and have excellent customer service. What really stood out for me with our particular kitchen project was their patience. In the face of an indecisive, detail-obsessed client, who takes an age to make the smallest of decisions and needs to know the ins and outs of everything, and every possible alternative available, nothing was too much trouble. Our finished kitchen, is, for us, absolutely stunning. The attention to detail with the installation and finish is superlative and they offer real value for money. Of course, a kitchen needs to do more than just look good, and using our kitchen on a daily basis with the layout Hamilton's suggested, is a dream. It has been a very long time in the making with my indecision, but I feel every in-depth conversation with the guys at Hamiltons was so worth it. Thank you Hamiltons!!

Case Study 2 – Traditional Style Meets Exceptional Quality

This client wanted modern contemporary functionality combined with traditional style and inspiration. They also wanted a bespoke dresser to compliment the main area while tying in the dining space to the rest of the room, so Hamilton Artline was perfect for creating the perfect blend of quality, natural wood finishes and offering an unlimited number of choices when it came to final finishes and colours.

★★★★★ 9 months ago

I am so pleased with my new kitchen fitted by The Hamilton Kitchen Company. Their attention to detail is second to none and everyone is so helpful, pleasant and courteous. I would thoroughly recommend them as a company to work with in designing and fitting a new kitchen.

As its Christmas and all the gadgets seems to come out at this time of year, we felt a great time to show you some amazing additions you can add to your home.

Introducing Zuma, the speaker light! This great and discreet addition, created by some of the finest leaders within the industry, meaning you can now have full lighting and audio control in any room run via their app. These great units remove the need for any messy ceiling work and lots of visible speakers. What's more, you can install retrospectively, and simply replace your existing downlighters*
